

Isaac Herman

New York, NY · (201) 803-0934 · iherman10@gmail.com · [Portfolio](#)

Education

University of Pennsylvania

Master of Science in Engineering - MSE, Data Science

Courses: Time Series Forecasting, Big Data Analytics, Statistics for Data Science

Philadelphia, PA

Sep 2025 - Present

Tufts University

Bachelor of Science - BS, Quantitative Economics, Minor in Computer Science

Honors: Summa Cum Laude

Medford, MA

Sept 2016 - Dec 2019

Experience

Pinterest

New York, NY

Data Analyst - Ads Measurement Research

Jan 2020 - Present

- Built privacy safe tool to estimate causal impact of ads without user-level data utilizing a Time-Based Regression and Geo Experiment framework, generated \$1.2M incremental spend from advertisers
- Engineered data pipeline to store metrics from advertising experiments, saving 50 hours of review time weekly and replacing over 10,000 separate reports with the company's first central database of experimental results
- Built dashboards to automate meta-analysis of advertising experiments using Inverse Variance Weighting methodology, enabled self-serve analysis and delivery of updated trends on a daily basis (instead of quarterly)
- Identified 300 advertisers at highest risk of signal loss from cookie deprecation and built dashboard to track adoption of cookieless products, ensuring continued visibility into \$30B of conversion value
- Developed internal tool for retail accounts to perform customer segmentation and calculate LTV along with XGBoost classification model to identify high-value customers for targeting purposes

SeatGeek

New York, NY

Partner Analytics Intern

June 2019 - Aug 2019

- Implemented linear regression model to predict team ticketing revenue based on win-loss and market data
- Built internal tool to scrape competitor pricing with Python

LionBird Ventures

Chicago, IL

Summer Investment Analyst

June 2018 - Aug 2018

- Prepared market research reports and generated market penetration strategies for portfolio companies
- Sourced deals at demo days and tech conferences, conducting due diligence to evaluate risk and value

TAMID Group Chapter at Tufts University

Somerville, MA

Co-Founder, President

Sept 2016 - May 2018

- Founded non-profit organization to provide students with education and pro-bono consulting opportunities in business, data science, and equity research
- Oversaw curriculum design, member recruitment (100+ students), and guest speaking events

Skills

- Python, Pandas, NumPy, Matplotlib, Seaborn, scikit-learn, Apache Superset, Tableau, PrestoSQL, SparkSQL, Git, Jupyter Notebooks, Experimental Design
